Unraveling the Recipe for Resilient Enterprise Security Operations

In the 2021 Cybersecurity Threat Trends report by Cisco, it was reported that 50% of organizations encountered ransomware-related activity. This upcoming webcast will focus on creating a recipe for ensuring resilient security operations and helping Business and IT Management teams make informed decisions during critical security incidents like ransomware.

Cybersecurity Training Management: A How-To Guide

We've all heard how security jobs were going unfilled long before the "great resignation." The talent shortage in cybersecurity has been part of the conventional wisdom for a decade. Training has been one solution that's often been mentioned to help ease the shortage: Train your staff to keep up with new threats and tools, and train staff from other disciplines to become security officers in their own departments.
